BUILDING CODE AND ZONING ORDINANCES FOR THE TOWN OF ATKINSON, N. H.

Adopted March 12th, 1940

To promote the health, safety, convenience and general welfare of the Town of Atkinson, and to make it an attractive place in which to live, the following ordinance and building code is hereby enacted by the voters of said town in annual town meeting convened:

Article 1—Establishment of Zoning Districts:

Sec. 1—for the purpose of this ordinance the Town of Atkinson is divided into two zones:

Zone A shall comprise the whole town with the exception of Zone B.

Zone B—Recreation Zone, the territory extending from the shore of Island Pond to within 300 feet of the center line of Route 111.

Article 2—Building Regulations. Zone A.

Sec. 1—The Roof of every building hereafter erected or re-covered in whole or in part shall be covered with fire resisting material, except that this section shall not be construed to prohibit the use of wood shingles in repairing any roof now covered with wood shingles.

Sec. 2—Chimneys shall be constructed of stone, brick or cement to the ground, shall be lined with tile and extend 2 feet above the roof to which it belongs, and shall have clean-out opening at the base. No smoke pipe shall be allowed to pass through floors or partitions separating rooms, and all entrances to said chimneys shall be of fire-proof construction.

Sec. 3—Every dwelling shall have a minimum ground floor area of 400 square feet, inside measurement, for each family unit.

Sec. 4—Sewerage: All dwellings and all public buildings shall be equipped with cesspool, septic tank, sanitary chemical closet or approved vault.

Sec. 5—Every building shall be set back from the front property line not less than 30 feet, or such distance as shall conform with the average line of existing buildings 500 ft. on either side, and all buildings shall be set back at least 10 ft. from the side lot line.

Sec. 6—No signs shall be permitted except the following: Town and State highway directional and regulatory signs, historic signs and those signs used to advertise the profession or goods dealt in by owner or occupant of property on which placed. No sign or group of signs shall exceed 20 sq. ft.—outside dimensions—and shall not be placed so as to obstruct view on highway. Location of signs shall be governed by same rules as apply to buildings in Sec. 5.

Sec. 7—Reconstruction of Buildings: Any structure destroyed by fire, explosion, flood, storm or other act of God may be rebuilt or reconstructed within one year of its destruction except that if a non-conforming use is destroyed to a degree of 75 per cent or more as determined by assessed valuation, it must, when rebuilt, conform to the terms of this ordinance in its location and construction.

Sec. 7a.—“No owner or occupant of any land in said districts shall permit any fire ruins to be left unfinished or incompleted thereon, but shall finish or complete, or remove the same within 12 months of the date of fire, except when there is property in court litigation it will take place one year of settlement of such court action.

Sec. 8—The construction of small accessory buildings together with minor alterations, repairs and general upkeep of existing buildings shall be exempt from the provisions of Sec. 7 and following articles.

Sec. 9—New Development.

A. The owner of any plot of ground intended for development or subdivision into building lots not fronting upon a public highway shall file with the Board of Selectmen a plan or map of the proposed subdivision, and shall obtain the approval of the Board of Selectmen thereon before proceeding with the development or sale of lots in the said subdivision.

B. It shall be the duty of the Board of Selectmen to inspect the site of such proposed subdivision, and to require such roadway and other areas for common use as will eventually be acceptable to the town for maintenance by the town, and to approve the same when satisfied that such proposed plans are in harmony with and conducive to the general welfare of the Town and the neighborhood, and not detrimental to existing property values, but in no sense shall this be deemed an acceptance by the town of the street or streets.

Article 3 Building Regulations of Zone B. The provisions of Zone A shall be applicable to Zone B except in the following respects:

Sec. 1—Dwelling not used for year round residence shall have a minimum ground floor area of 300 sq. ft. for each family unit.

Sec. 2—Provisions of set back from front property line shall not apply.

Article 4—Town Building Inspector:

Sec. 1—For the purpose of this ordinance the Board of Selectmen shall appoint a town Building Inspector who shall

perform the duties of his office as designated in the various provisions of this ordinance and shall make inspections of all building in process of building or reconstruction and report all violations to the Board of Selectmen.

Sec. 2—Any person before commencing work on the erection or alteration of any building or structure must first obtain a permit duly granted for such erection or alteration by the building inspector. Before a permit shall be issued by the Building Inspector, he shall determine whether the proposed construction or alterations conforms to all the conditions of this ordinance.

Sec. 3—An application fee of \$4.00 for new construction and \$2.00 for major alteration to be paid the Building Inspector, collected the same as other ordinary bills are collected from the town and shall be payment in full for his services. Permits for repairs will be issued free.

Sec. 4—No permit, however, shall be issued unless the proposed structure will present a reasonable appearance and will be in keeping with the neighborhood and unless the building is to be finished on the exterior in a permanent manner and is to be suitably painted on the outside whenever the same is of wood or a material customarily painted except that in Zone B camps may be left unpainted. This is intended to eliminate the erection of structures obviously out of place for the neighborhood where they are to be located, and which may have a detrimental effect on property values and neighborhood character. When an objection, on account of the appearance of a proposed structure as above indicated, is raised by a majority of the families residing or owning property within a radius of 500 ft. of the property in question, the Board of Adjustment shall hold a public hearing to receive evidence on both sides and shall have the authority to decide whether the permit shall be issued or not.

Article 5—Board of Adjustment:

The Selectmen shall appoint a Board of Adjustment conforming in membership and duties to the provisions of Chap. 42.

Sec. 54-60 inclusive of the Public Laws, said Board to serve without compensation. This citizen board shall have authority to allow slight variance from the specific terms of this ordinance, where it can be shown that they would result in unnecessary hardship.

Article 6—Penalty for Violations:

Whoever violates any of the provisions of the above regulations shall be punished upon conviction by a fine not exceeding \$10.00 for each day of each violation. It shall be the duty of the Selectmen to see that this ordinance is enforced and to take appropriate steps to correct any violation of this ordinance in accordance with Public Laws, Chap. 42, Sec. 67.

Article 7—Amendment of Ordinance:

The provisions of this ordinance may be amended or changed at any regular or special Town Meeting by a majority of the voters present as provided by the Public Laws.

Article 8—This ordinance shall take effect upon its passage.

HARRY B. TUTTLE,
CHARLES G. MELLINGER,
ARTHUR H. SAWYER,
CLARENCE W. KINNEY,

Planning Board.

REPORT OF TOWN PLANNING BOARD

At the last town meeting the sum of \$100.00 was appropriated, to be expended under the direction of the Board for the purpose of advertising the town as a place in which to build or locate.

Of this amount the Board drew \$85.00, of which \$67.05 was used for the following purposes.

Ad in Boston Sunday Globe	\$11.25
Ad in Haverhill Gazette	7.20
Round trip to Boston	1.30
Telephone	.65
Rush-A-Service, Printing	5.50
Rush-A-Service, Printing	3.75
Stamps	1.75
Part of cost of purchasing four entering and leaving town signs	35.65
	<hr/>
	\$67.05

This leaves a balance of \$17.95 not used and returned to Town Treasurer, together with \$15.00 not drawn, leaving a total balance of \$32.95 from the original appropriation of \$100.00.

Signed,

THOMAS C. DUFFEY,
HARRY B. TUTTLE,
CLARENCE W. KINNEY,
CHARLES G. MELLINGER,
ARTHUR H. SAWYER,

About thirty people were contacted during the year by mail, telephone or personally, and a printed descriptive list of available property, together with a circular describing Atkinson's residential attractions, was mailed or given to all inquirers.

The Board feels that it has been helpful in at least four transactions, besides paving the way for new residents in the future.

We feel that the Community Council should be commended for sponsoring, and aiding financially in the purchase of our entering and leaving signs, the total cost of which was \$70.68 and to which the Council contributed \$35.03.

We are also grateful to Clarence W. Kinney and Ward Wright of Atkinson and Maurice Randall of Hampstead for labor donated in placing signs.

Signed,

THOMAS C. DUFFEY,

Chairman.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

I take pleasure in presenting my annual report as Superintendent of your schools.

The Statistical Report is for the school year ending June 30, 1941. This report is followed by the report of the Music Supervisor.

There was one change in the teaching staff of the Atkinson schools at the beginning of this school year. Miss Doris Hevey resigned her position as teacher in the primary room, and the vacancy was filled by the election of Miss Barbara Eldredge.

The enrollment in the elementary school for the year covered by this report was fifty-seven, showing a decrease of six since the year previous. The 1941-1942 enrollment is sixty-six. The enrollment of the Academy was eighteen, one less than the year previous. The school attendance averaged 93.81 percent of the membership, as compared with the state average of 94.70 percent.

Three pupils completed the work of the eighth grade last June, and two of these have entered the Academy this year. The following list shows the September enrollment of Atkinson pupils in High Schools:

Last summer the wood shed at the Primary School was moved so that it was joined to the school building. A section of the shed was remodeled into two toilet rooms, and a septic toilet tank was installed. These toilets are neat and clean, and are very satisfactory. The remainder of the building serves for storing wood and coal.

Miss Helen Thomas, our school nurse, has been absent, due to illness, since November. Mrs. Elizabeth Hay, of Hampton, is taking her place, and is doing excellent work directing the health program in the Atkinson schools.

In December the recommendations and suggestions of the National Council for Civilian Defense, for the care of children at schools during air raids, were adopted and put into practice in our schools. The air raid shelters have been selected, and the children, through frequent drills, have been accustomed to using them. Schools have been equipped with pails and shovels for the handling of incendiary bombs. The older children have been given minor responsibilities in this work and drills have been so conducted as to allay fear among the children.

Emphasis on the academic program, and particularly on Reading, Arithmetic, and Health, has been maintained. The primary reading program has continued to be based on the "Alice and Jerry" series of textbooks and instructional material in grade one through grade three, which have proved effective. We have also tried to diagnose reading disabilities and their causes,

and to plan work to fit individual needs. The Metropolitan Achievement Tests, and the Otis Tests of Mental Ability have been given, and prove most helpful in this work. The Arithmetic program is based on the recommendations made in 1936 by a national committee of specialists in the teaching of arithmetic in the elementary schools. This program with diagnostic tests and remedial work has made the instruction more effective. All arithmetic books now printed follow the new recommendations. As older text books have become worn out, we have replaced them with the new Curriculum books.

A Citizenship Club has been organized by the Primary School pupils. Leaders are appointed for general school management, such as playground supervisor, health inspector, room monitor, and housekeeper. A desire for better health habits has been created through the use of individual health charts. An interesting project on Indians included a sandtable construction of an Indian Village. Individual and group scrapbooks were made in connection with a Safety Unit.

The Grammar School group is most enthusiastic about the weekly Current Events Class. Material is obtained from a fine weekly periodical, subscribed to by the majority of the group. The practice of serving cocoa is being continued this year by the seventh and eighth grade girls under the supervision of Mrs. Olsen. From forty to forty-five cups are served each noon. The pupils in our schools have contributed most generously to the local Red Cross work. The Primary group assisted in making contribution boxes and the upper grade pupils have joined the Junior Red Cross.

Christmas projects were instructive as well as enjoyable. Each child made a small gift to be given to some member of his or her family. String boxes were made by the Primary pupils, while the children in the Grammar room made napkin rings. The schools furnished the program for the community tree at Christmas, also. Children in all grades took part.

Radio programs, intended for use as aids in teaching history, geography, and literature, have been utilized each week. These programs have been most helpful both to teachers and pupils. Motion picture films have been used to a limited extent in teaching history and geography. We hope to make it possible to use them more often in the near future.

The Educational Policies Commission of the National Education Association performed a splendid service to education by preparing a bulletin in January entitled "A War Policy for American Schools". In this report this commission suggests that education can make its best contribution to the war if school boards and educational workers consider carefully the following activities as both necessary and appropriate war duties of the schools:

- Training workers for war industries and services.
- Safeguarding health and physical efficiency.
- Producing goods and services needed for the war.
- Conserving materials by wise consumption and salvage.
- Helping to raise funds to finance the war.
- Increasing effective man power by correcting educational deficiencies.
- Protecting school children and property against attack.
- Protecting the ideals of democracy against war hazards.
- Teaching the issues, aims, and progress of the war.
- Sustaining the morale of children and adults.
- Maintaining intelligent loyalty to American Democracy.

The Commission reminds us that there was never a time when educators carried such a heavy responsibility nor ever a time when their work was of greater significance. The schools have an important part to play in the battle for democracy. The times ahead will call for more generous financial support of the schools. The cost of supplies is rising rapidly. Fortunately schools are assured of reasonable supplies through a priority rating.

A shortage of teachers already exists, not only in the elementary schools, but is even being felt in the high schools. We must do all that is possible to maintain the quality of our schools. We must strengthen them rather than allow the standard to be lowered as happened during the World War No. 1.

In conclusion, I wish to express my thanks to the members of the School Board for their interest and activity in the planning and carrying out of the school program, of the past year. I would also commend the teachers, who meet the children from day to day, for their loyal cooperation in handling the numerous problems of instruction and leadership. We have had fine public support for the school program. The training of our youth is a joint task, all community and home agencies must cooperate if it is to be well done.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

To Mr. W. J. Nelson, Superintendent of Schools:

I herewith submit my annual report as Supervisor of Music in the Atkinson Schools.

The children of the lower grades have an organized course in rote singing, the songs are written within the range of the child voice and of simple rhythm. The elements of musical notation are taught step by step through the grades. The pupils of the upper grades are being given a course on "The Symphony Orchestra" in connection with the Walter Damrosch Hour.

On March 21st the students at the Academy presented the operetta "Bobby" by Morgan and Johnson.

I wish again to express my appreciation to you, the teachers, and students for the cooperation and support given me during the year.

Respectfully submitted,

EVA W. THOMPSON.
